Plasmare la materia

L'attività di Desalto si iscrive nella tradizione produttiva della Brianza che dagli anni '50 arriva ai giorni nostri. Un'area privilegiata in cui i maestri del design italiano trovano da sempre terreno fertile oltre ad un'imprenditoria caparbia ed appassionata.

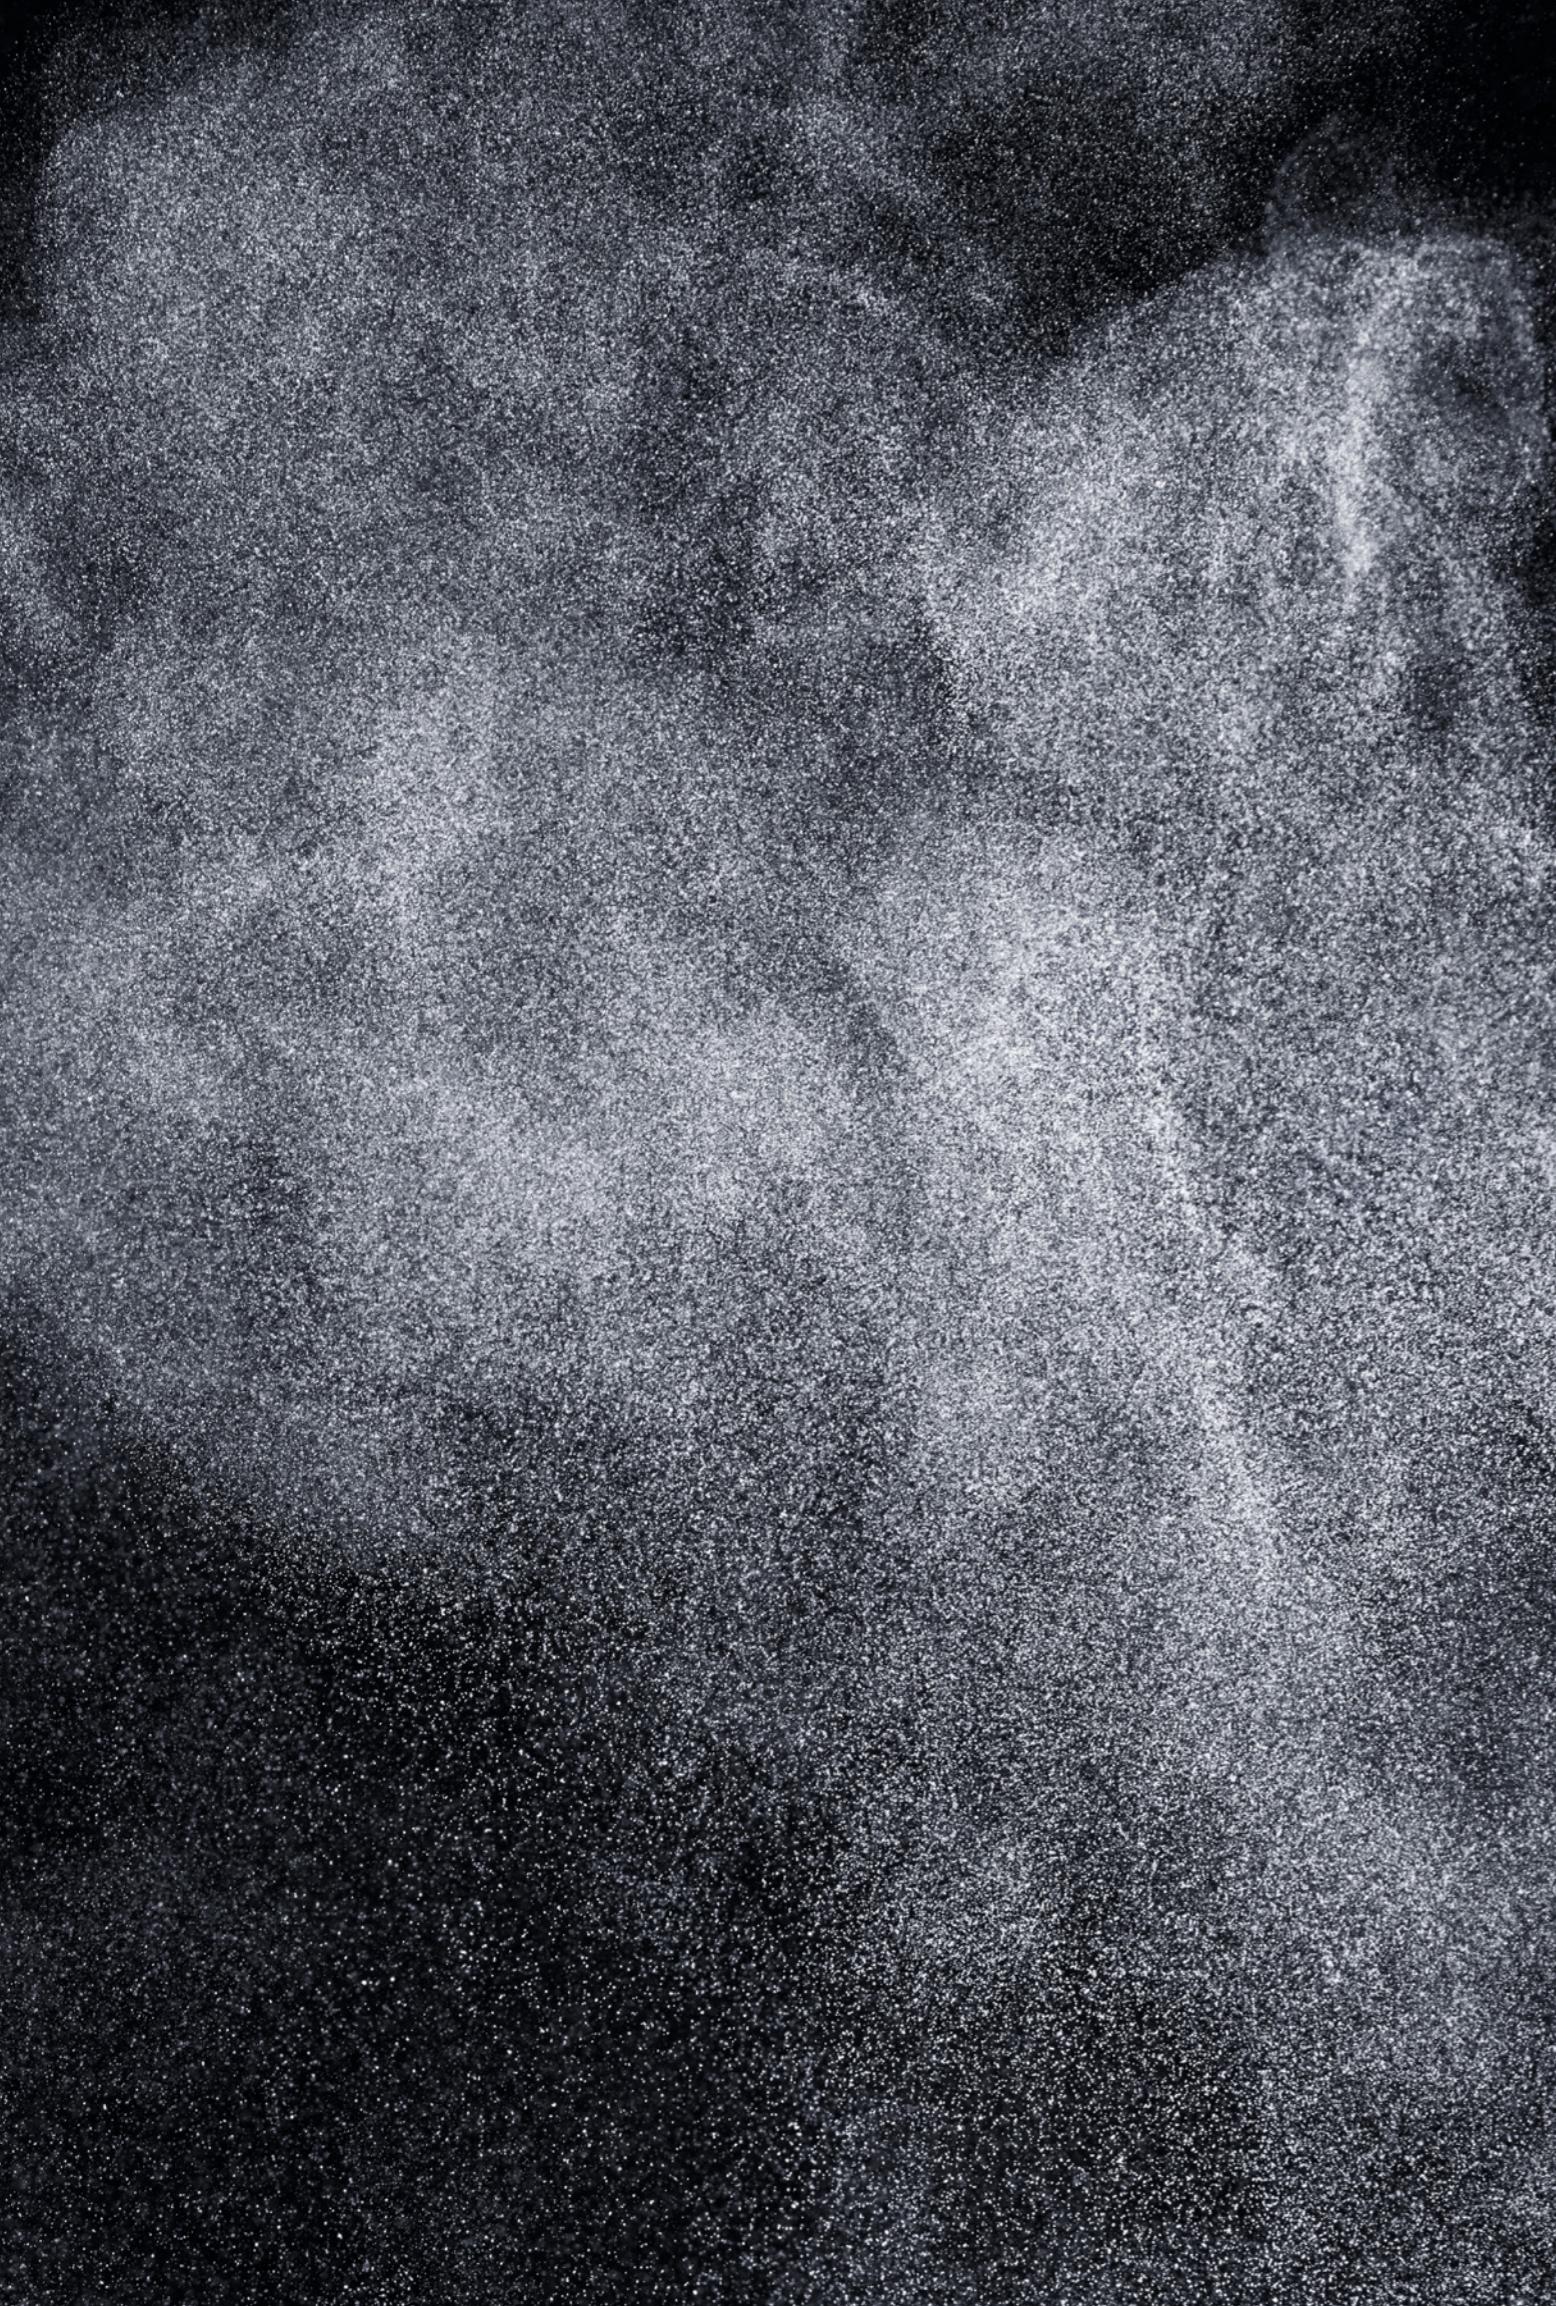

Attraverso la progettazione, Desalto trasforma linee e materia in arredi architettonurali dalla grande potenza espressiva. Tecnica, innovazione ed equilibrio: i progettisti tracciano segni netti e dinamici che l'azienda traduce in collezioni che esprimono una grande valenza formale ed estetica. Un tavolo e una sedia diventano architetture living e sculture funzionali per il residenziale.

Forme uniche e distinctive che dialogano con architetture d'interni, oggi più che mai desiderose di prodotti generosi nei volumi e geometrici nelle linee. Collezioni audaci che nascono da una visione colta e creativa, trainate da un importante know-how nel mondo dei metalli e dei trattamenti galvanici.

Desalto da sempre associa i suoi valori alla cultura del saper fare bene. Costruire un prodotto significa interpretare questi valori e lavorare sull'essenzialità e sull'equilibrio perfetto. Oggi l'azienda si manifesta nell'innovazione, nella sperimentazione formale e nell'uso dei metalli, immaginando ogni giorno nuovi scenari d'interni.

Dal 2022 Desalto si avvale della direzione artistica di Francesco Rota trovando grande affinità con la sua visione progettuale. Il punto di partenza del suo lavoro ruota intorno ad un dualismo industriale-artigianale di alto profilo. Grazie a questa importante relazione l'azienda si sta muovendo, ancora una volta, verso territori inesplorati continuando ad accrescere la sua innata sensibilità estetica e ad investire in know-how tecnico.

Shape the matter

Desalto's activity employs the traditional production methods of Brianza, which since the 1950s has been an affluent area where masters of Italian design have found fertile ground as well as a determined and passionate entrepreneurship.

Through design, Desalto transforms lines and materials into architectural furnishings with great expressive power. Technique, innovation and balance: designers draw clear and dynamic signs that the company translates into collections expressing great formal and aesthetic value. A table or a chair become architectures for living spaces and functional sculptures for residential.

Today more than ever before, products boast generous volumes and geometric shapes and lines as unique and distinctive shapes that create a dialogue with interiors. Bold collections arise from a cultured and creative vision, driven from an important know-how within the world of metals and galvanic treatments.

Desalto associates its values with a culture of expertise, manufacturing a product that interprets these key points whilst focusing on what is necessary to strike the perfect balance. It prides itself on innovation, as well as formal experimentation, and the use of metals to imagine new interior scenarios every day.

Since 2022, Desalto has nurtured the artistic direction of Francesco Rota, finding great affinity with his design vision. His work has springboarded an industrial-artisan dualism of high profile and thanks to this important relationship, propelled the company into uncharted territories, combining a strong artistic sensibility and an invest-

Shape the matter

Desalto's activity employs the traditional production methods of Brianza, which since the 1950s has been an affluent area where masters of Italian design have found fertile ground as well as a determined and passionate entrepreneurship.

Through design, Desalto transforms lines and materials into architectural furnishings with great expressive power. Technique, innovation and balance: designers draw clear and dynamic signs that the company translates into collections expressing great formal and aesthetic value. A table or a chair become architectures for living spaces and functional sculptures for residential.

Today more than ever before, products boast generous volumes and geometric shapes and lines as unique and distinctive shapes that create a dialogue with interiors. Bold collections arise from a cultured and creative vision, driven from an important know-how within the world of metals and galvanic treatments.

Desalto associates its values with a culture of expertise, manufacturing a product that interprets these key points whilst focusing on what is necessary to strike the perfect balance. It prides itself on innovation, as well as formal experimentation, and the use of metals to imagine new interior scenarios every day.

Since 2022, Desalto has nurtured the artistic direction of Francesco Rota, finding great affinity with his design vision. His work has springboarded an industrial-artisan dualism of high profile and thanks to this important relationship, propelled the company into uncharted territory that focuses on an innate aesthetic sensibility and an investment in technical know-how.

Desalto ist fest in der produktiven Tradition der Brianza verwurzelt, die von den 1950er Jahren bis in die Gegenwart reicht. Dieses bevorzugte Gebiet ist immer ein fruchtbare Terrain für italienische Star-designer und Unternehmer, die Zielstrebigkeit und Leidenschaft einbringen.

Der Designprozess von Desalto verwandelt Linien und Materie in ungemein ausdrucksstarke Einrichtungselemente. Technik, Innovation und Ausgewogenheit: klare, dynamische Zeichen der Designer, die Desalto mit großer formaler und ästhetischer Ausdruckskraft in den Kollektionen wiedergibt. Ein Tisch und ein Stuhl werden zu wohnlicher Architektur und funktionalen Skulpturen in jedem Wohnambiente.

Charakterstarke Formen im Dialog mit Innenarchitekturen, die heute mehr denn je auf Produkte setzen, die in den Volumen großzügig und in den Linien geometrisch sind. Kühne Kollektionen, kultiviert und kreativ, die im hochwertigen Knowhow in der Metallverarbeitung und galvanischen Beschichtung eine treibende Kraft haben.

Desalto verbindet die eigenen Werte eng mit einer Kultur kompetenter Arbeitsqualität. Ein Produkt zu bauen ist die Interpretation dieser Werte, die Suche nach dem Wesentlichen und einer perfekten Harmonie. Grundsätzlich für das Unternehmen sind heute Innovation, das Studium neuartiger Formen und der Einsatz von Metallen, um immer wieder neue Wohnideen entstehen zu lassen.

Seit 2022 ist Francesco Rota Art Director von Desalto: Seine Vision von Design liegt genau auf der Linie unseres Unternehmens. Ausschlaggebend für seine Arbeit ist der Dualismus von Industrie und Handwerk auf hohem Niveau. Mit dieser wichtigen Zusammenarbeit betritt das Unternehmen wieder einmal unerforschte Räume, um die ihm eigene ästhetische Sensibilität weiterzuentwickeln und in technisches Know-how zu investieren.

Desalto da sempre associa i suoi valori alla cultura del saper fare bene. Costruire un prodotto significa interpretare questi valori e lavorare sull'essenzialità e sull'equilibrio perfetto.

Desalto associates its values with a culture of expertise, manufacturing a product that interprets these key points whilst focusing on what is necessary to strike the perfect balance.

Modeler la matière

Desalto est l'héritière du savoir-faire de la Brianza, une tradition qui n'a cessé de s'enrichir des années 50 à aujourd'hui. Cette région a toujours été un terreau fertile pour les maîtres du design italien qui ont su y trouver l'inspiration et le soutien d'entrepreneurs aussi tenaces que passionnés.

Dans ses projets, Desalto transforme les lignes et la matière en éléments d'ameublement architecturaux puissamment expressifs. Technique, innovation et équilibre : les designers tracent des lignes nettes et dynamiques que l'entreprise traduit dans des collections alliant excellence formelle et esthétique. Une table et une chaise deviennent ainsi des œuvres architecturales domestiques, de véritables sculptures fonctionnelles au sein des habitations.

Les formes uniques et distinctives des produits de Desalto sont en parfaite adéquation avec les projets d'architecture d'intérieur, aujourd'hui plus que jamais en quête d'éléments aux volumes généreux et aux lignes géométriques. Les collections audacieuses de la marque sont portées par une vision cultivée et créative s'appuyant sur une connaissance approfondie du travail des métaux et des traitements galvaniques.

Desalto a toujours associé ses valeurs à la culture d'un savoir-faire de qualité. Pour elle, la fabrication signifie interpréter ces valeurs jusqu'à arriver à la substance la plus intime et au plus parfait équilibre des produits. Alliant aujourd'hui innovation, expérimentation formelle et utilisation des métaux, l'entreprise parvient à imaginer chaque jour de nouveaux scénarios d'intérieur.

Depuis 2022, Desalto a confié sa direction artistique à Francesco Rota avec lequel elle partage la même vision du design. L'approche de Francesco Rota est axée sur le dualisme de la production industrielle et artisanale de haut niveau. Cette collaboration de premier plan permet à Desalto d'évoluer, une fois de plus, vers des territoires inexplorés sans jamais cesser d'enrichir sa sensibilité esthétique innée et d'investir dans son savoir-faire technique.

Plasmar la materia

La actividad de Desalto se inscribe en la tradición manufacturera de Brianza, que desde los años cincuenta llega hasta nuestros días. Una zona privilegiada en la que los maestros del diseño italiano siempre han encontrado un terreno fértil, además de un espíritu empresarial tenaz y apasionado.

A través del diseño, Desalto transforma líneas y materia en mobiliario arquitectónico de gran fuerza expresiva. Técnica, innovación y equilibrio: los diseñadores trazan signos claros y dinámicos que la empresa traduce en colecciones que expresan un gran valor formal y estético. Una mesa y una silla se convierten en elementos arquitectónicos y esculturas funcionales para uso residencial.

Formas únicas y distintivas que dialogan con la arquitectura de interiores, ávida ahora más que nunca de productos de volúmenes generosos y líneas geométricas. Colecciones audaces que nacen de una visión culta y creativa, impulsadas por un importante know-how en el mundo de los metales y los tratamientos galvánicos.

Desalto siempre ha asociado sus valores a la cultura del saber hacer bien. Construir un producto significa interpretar estos valores y trabajar en la esencialidad y el equilibrio perfecto. Hoy la empresa se manifiesta en la innovación, la experimentación formal y el uso de los metales, imaginando cada día nuevos escenarios del interiorismo.

Desde 2022 Desalto se encuentra bajo la dirección artística de Francesco Rota, encontrando gran afinidad con su visión del diseño. El punto de partida de su trabajo gira en torno a un dualismo industrial-artesanal de alto nivel. Gracias a esta importante relación, la empresa avanza, una vez más, hacia territorios inexplorados, al tiempo que sigue potenciando su innata sensibilidad estética e invirtiendo en conocimientos técnicos.
