

Rebus

Inspired by the iconic video game, Rebus consists of a series of modules that can be combined in an infinite number of configurations. Small freestanding bookshelves and storage units designed to furnish spaces on their own or in combination with seating and sofas. In this project, metal is the focal point and distinctive element: a 3mm thick sheet that twists through space to create square, rectangular, L, and Z shapes that perfectly fit together.

Rebus

A modular shelving system made of 3 mm thick folded and painted metal. Modules are assembled using a magnetic attachment system. The metal elements, available in various shapes and sizes, are stackable and multidirectional.
