

Fan - Outdoor

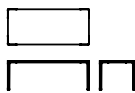

Piero Lissoni, 2014

With the expressive character conferred by the wood texture of the sawn-effect oak top, the Fan table embodies a clear and precise concept of stylistic rigor. Even the detail of the structural legs with their distinctive industrial language enhances the uniqueness of the design.

Fan - Outdoor

Table composed of legs made of lacquered steel. Top made of solid Iroko slats, treated with a specific oil for outdoor use.

Height: 74 cm
