

Hang

Technological, accessorised, modular, the Hang extruded aluminium shelf can fill a whole wall or be combined endlessly in a line.

Hang

Shelving system of extruded aluminium, provided with two characteristic slots (one on the upper and one on the under side) allowing the free positioning of the accessories. A regulation mechanism allows to obtain an exact 90° angle to the wall. Different configurations can be obtained without limits of length, by joining more pieces together.

Hang

depth 30 cm
shelves height 7 cm
width 80 - 120 - 160 - 200 cm
