

# Koki Wire - Corda

An unprecedented version of Koki Wire whose character is accentuated by the contrast between the woven rope finish - the protagonist of the seat - and the metal structure. Light, essential and versatile, it fits harmoniously into indoor and outdoor, private and public spaces.

Koki Wire - Corda

Supporting structure with sled base and back in steel rod, woven with high tenacity polyester rope, 100% recyclable, capable of guaranteeing high resistance to atmospheric agents, light fastness, abrasions with low elongation. Powder coated frame, suitable for outdoor use.
